Section 1. This Ordinance shall be known as the 911 Locatable Address System.

Section 2. Administration

The Director, Department of Engineering, through the Municipal Surveyor, is designated as the person responsible for the administration and implementation of this Ordinance.

Section 3. Street Addresses

1. The Director, Department of Engineering, through the Municipal Surveyor shall, in coordination with the Tax Assessor, establish street address numbers in accordance with the following guidelines:
 - A. Street addresses shall be assigned to each lot on new subdivision plats at the time of initial submission of the plats to the Central Planning Board for approval. The developer of the property shall be advised of the assigned addresses by the Director, Dept. of Engineering.
 - B. In those areas where needed, a systematic renumbering program for streets within the City in accordance with the policies and guidelines established herein shall be implemented. In the interim, as building permit applications are filed for development on parcels along streets which have not yet been systematically renumbered, an appropriate street address number for such development shall be assigned prior to the approval of the building permit.
 - C. As street address numbers are determined and assigned as provided above, such addresses shall be recorded in the Newark Geographic Information System, hereinafter known as GIS, to be maintained by the Municipal Surveyor. No building permit shall be approved until a street address has been determined, assigned and recorded in the GIS.
 - D. The Director, Department of Engineering shall notify property owners in writing by certified mail, of any change in their address due to the renumbering system. Bell Atlantic - New Jersey shall also be notified in accordance with the procedures developed by the State of New Jersey 911 Commission and the Office of Emergency Telecommunications Services (OETS).
 - E. Property owners are required to notify any tenants of an affected premise and the United States Postal Service in writing by certified mail, of any changes to the street name and/or street address number within 10 days of receipt of the information from the Director, Department of Engineering as outlined in Section 3.1.D.
 - F. Within thirty (30) days after receipt of written notification of change or assignment of address, the property owner shall, at his/her own expense, affix/display the assigned number as prescribed in Section 5. It shall be the duty of the property owner, upon affixing the new number, to immediately remove any different address number. For new construction, the property owner shall prominently display the address used on the building permit at the site prior to construction. Upon completion of construction or for each partial occupancy, street address numbers shall be affixed by the property owner prior to actual occupancy as described in Section 5.

Section 4. DETERMINATION OF STREET ADDRESS NUMBERS

1. Street address numbers shall be determined in accordance with the following:
 - A. Official property numbers shall proceed from a logical point of origin and shall be in proper numerical sequence in relation to the numbers assigned to other lots with frontage on or access to the same street.
 - B. Odd and even numbers shall be assigned so as to be in keeping with the current odd/even numbering system on the respective side of the street. There shall be sufficient flexibility so that the numbering system may accommodate maximum density as allowed by zoning regulations now in effect. If existing lot frontage is less than the minimum zoned frontage, the numbering shall compress to accommodate the existing lot frontage.
 - C. Numbers shall be reserved for vacant parcels a minimum of every 25 feet, with the exception of less than the minimum zoned frontage as described in section 4.1.B.
 - D. In multi-family, commercial, industrial and similar development situations where density of development may render the above described addressing system ineffective, a building or building group may be assigned a single number and a numerical or alphabetical suffix may be assigned to each building, dwelling unit, business or establishment.
 - E. All Municipal, County and State roads and private roads shall have a street sign in accordance with the GIS of the City of Newark. Street signs shall comply with the current street sign standards for the City. The installation, cost, and maintenance of street signs on private roads shall be the responsibility of the developer or property owner.
 - F. Any private street shall, in accordance with law, have a unique name which the Director, Department of Engineering shall confirm in writing that it is unique and not in conflict with any existing street names. This confirmation must be secured by the owner/developer prior to the issuance of a construction permit and installation of any street signs.
 - G. Any new public streets or re-named public streets shall also have a unique name and the name of such new or renamed public street shall be approved by the Municipal Council through an ordinance.
 - H. The Director, Department of Engineering shall prepare and recommend for Municipal Council approval through Ordinance, names for any existing unnamed public alleys, courts, etc. to easily identify these areas for emergency response. The approved names shall be included in the GIS.
 - I. The Director, Department of Engineering shall be responsible for updating the official City Map and GIS.
 - J. Nothing contained herein shall be construed to require the renumbering of existing streets unless a substantial problem with existing addresses is identified by the Director, Department of Engineering, who shall then notify the City Clerk after any renumbering.
 - K. Any property seeking a unique designation, other than the official address, must first have the designation recommended by the Director, Department of Engineering, who shall forward same to the Municipal Council for approval.

May 15, 1996

- L. Upon implementation and adoption of the 911 Locatable Address System, the Director, Department of Engineering shall forward a correct version of the official City map to the United States Postal Service, Bell Atlantic and all appropriate emergency services serving the City.

Section 5. SIZE AND LOCATION OF STREET ADDRESS NUMBERS

Street address numbers shall be conspicuously placed above or at the side of the main entrance door so that the number is discernible from the street. Numbers shall be a minimum height of 5 inches, be of a durable and clearly visible material and of a contrasting color to the background on which they are mounted.

When the entrance to a building is not visible from the street, the street address numbers shall be displayed on a post situated at a vehicle entry point or a pedestrian walkway to the property.

Re: **AN ORDINANCE TERMINATING EXISTING LEASE AGREEMENT BETWEEN THE CITY OF NEWARK AND THE PARKING AUTHORITY FOR THE MILITARY PARK GARAGE AND APPROVING A NEW LEASE REQUIRING THAT MAJOR RENOVATIONS BE COMPLETED**

Ladies & Gentlemen:

In accordance with your request, we have reviewed the form of Agreement of Master Lease attached to the above referenced Ordinance, in particular those items relating to the security of payments to the City of Newark for debt service on bonds to be issued to rehabilitate the Military Park Garage, and for provisions relating to Affirmative Action. Upon our review, we have several technical corrections and comments of a non-substantive nature which we will review with the Corporation Counsel, for inclusion in the Final Agreement.

In regard to the items of concern that the Council requested review of, the lease provides for "rent" and "additional rent", to be paid to the City of Newark, which sums are equal or greater than the debt service on the Bonds issued by the City of Newark, plus any other sums which may be incurred by the City of Newark relating to this agreement and/or the Military Park Garage. This sum is included as an item of "operating expense" to be paid prior to any surplus revenues being divided between the Redeveloper, the Parking Authority, and/or the City. In other words, a priority item to be paid from revenue. In addition, the Agreement provides that the City of Newark Parking Authority shall be required to provide annual operating expense budgets to the City, for its approval. The Lease further provides, at Section 37, that the payment of rent is a material condition of the obligations under the Agreement, and if for any reason, said provisions relating to the payment of rent were found to be unenforceable, or improper, the Agreement would terminate, and all income and proceeds from the garage would thereafter flow directly to the City. There are also various default provisions that would result in the revenue flowing directly to the City to cover debt service.

Relating to Affirmative Action, the form of lease provides that any managers or operators of the garage retained by the Parking Authority and/or the City of Newark shall be entities that express a willingness and ability to implement Affirmative Action Programs in accordance with the regulations of the Parking Authority and the City of Newark's guidelines and ordinances.

We shall discuss the non-substantive language changes and corrections directly with Corporation Counsel, so that said changes can be made in the final form of the Lease.

If the Council requires any further clarification of this matter, we are available to discuss same.

Very truly yours,

President Bradley called for ordinances for reconsideration.

6-S & F-h.

The City Clerk read **An Ordinance to amend Title Twenty-one, Chapter Five, Section Three of the revised ordinances of the City of Newark, New Jersey (1966) as amended and supplemented.**

(6.3% decrease)

(Copy of ordinance submitted to each Member of the Council)

(Ordinance vetoed by the Mayor August 8, 1996)

The City Clerk stated the question before the Council is "Shall the Municipal Council override the Mayor's veto of **An Ordinance to amend Title Twenty-one, Chapter Five, Section Three of the revised ordinances of the City of Newark, New Jersey (1966) as amended and supplemented?**"

The City Clerk read the following veto message from Mayor Sharpe James:

SHARPE JAMES
MAYOR
NEWARK, NEW JERSEY
07102

August 8, 1996

Council President Donald Bradley
Newark Municipal Council
City Hall - Room 304
920 Broad Street
Newark, N.J. 07102

Dear Council President Bradley:

I must respectfully veto the decrease in the Sewer Rates Ordinance, whereas it would result in a tax increase for the citizens of Newark. Moreover, it would paralyze the City to address any emergencies and represents an act of poor management and legislative indifference.

As you are aware from my prior correspondence dated July 25, 1996 on the issue of the decrease in the sewer rates, I have some critical concerns that have remained unaddressed. Therefore, I will veto Ordinance 6PH, S & F-f. The following list summarizes my reasons for vetoing this Ordinance:

1. Tax exempt users will not pay this increase in taxes, but will benefit from the decrease in sewer rates. The full impact of any tax increase will fall completely on taxable properties. Therefore, an entity, such as Port Authority, will pay no additional taxes, but will receive a reduction in their sewer rate.
2. If additional fund balance is utilized in the Sewer Utility's Budget, it will jeopardize the future stability of the sewer utility.
3. Seventy percent (70) of the Sewer Utility's Budget is outside of the control of the City of Newark.

September 4, 1996

4. Sixty-eight percent (68%) of the Sewer Utility's Budget represents payments to Passaic Valley Sewerage Commission. This Commission has applied to the New Jersey Wastewater Trust Fund for \$265 million in capital financing. This would include an interest free loan of \$132 million and a bond issuance for \$132 million. The debt service of these projects alone could add \$5.4 million to Newark's Sewer Utility Budget by 1999.
5. If costs are transferred to the City's Operating Budget from the Sewer Utility's Budget, it will increase our 1996 tax rate.
6. It is required by State Statute and Bond Covenant that the Sewer Utility remain self-liquidating. The revenues of the Sewer Utility must support its expenditures including 110% of debt service. A rate reduction of this magnitude and at this time during the year puts considerable pressure on the ability of the Sewer Utility to remain self-liquidating. This difficulty would be compounded if additional Sewer Fund Balance is utilized to balance the 1996 Sewer Utility budget. If the Sewer Utility should not be self-liquidating at the end of 1996, all of its debt would become part of the City's for the purpose of debt limit computation. This would severely restrict the City's ability to issue debt for other capital needs. The bond covenant would require an immediate adjustment in the Sewer rates to make up any deficiency.

Throughout my tenure as Mayor, I have had to make many difficult, unpopular decisions for the good of the City. Certainly the easier path to take would be to just allow this rate reduction to take place. However, the Municipal Council's approval of an ordinance to reduce sewer rates is an unsound management practice. The reduction would come at the expense of the Sewer Utility's Fund Balance and the 1996 tax rate. It will jeopardize our long range infrastructure repair program and our ability to respond to any contingencies and emergencies. A sound, prudent management decision would be to avoid rate shock.

In light of these issues and in observing municipalities nationwide that are faced with similar kinds of budget challenges, I have decided to maintain my position and continue to support measures that lessen the impact of tax increases and spread inevitable costs equitably. Most disappointing in this entire issue is that personal politics and upcoming election year tactics have prompted my colleagues to grandstand now and make the tough decisions after the election. This has got to stop. I therefore plan to veto this measure which will put the City of Newark at risk.

Sincerely,

Sharpe James
Mayor

SJ/acr
